PROFESSIONAL SUMMARY

Supply Chain Professional with 6+ years' experience in procurement, logistics, and AI-powered automation. Proven success in reducing costs, optimizing global operations, and scaling digital supply chain platforms

EXPERIENCE

PROFESSIONAL EXPERIENCE

Blue Ship Sync | Supply Chain Solution Manager

December 2024 – Present

- Spearheaded design and launch of AI-driven supply chain automation platform, achieving **85% reduction in operational costs** for enterprise clients through digital transformation initiatives
- Led full-stack development using Vertex AI, PostgreSQL, and advanced automation tools, directing technology integration for high-volume supply chain environments
- Built multi-layered AI architecture **leveraging machine learning to reduce procurement, inventory, and fulfillment cycle times by 90%**, significantly improving client competitiveness
- **Eliminated 95% of manual data entry through NFC-enabled warehouse receiving** and intelligent document processing, improving accuracy and speed across operations

Rieke (Trimas) Manufacturing | Supply Chain Manager

January 2024 – March 2025

- Managed and resolved **\$3.2M** in logistics and supply chain issues, achieving **20% backlog reduction and 85% improvement** in invoice reconciliation accuracy through strategic process improvements
- Coordinated end-to-end logistics for **5+ million plastic pumps** delivered to **Fortune 500 clients** (Unilever, P&G, L'Oréal), enhancing operational efficiency by **25%** through streamlined processes
- Developed and maintained master production schedules for **200+ SKUs**, reducing manufacturing lead times by **15%** while maintaining **98% on-time delivery** performance
- Led sourcing realignment across 12 vendors, accelerating PO processing by 28% and boosting supplier responsiveness to 92% SLA compliance

Amazon | Supply Chain Specialist & Operations Specialist

April 2018 – December 2022

- Scaled inbound logistics throughput by 78%, achieving the highest operational efficiency across 16 regional fulfilment centres while maintaining a consistent **100% quality score for 14 consecutive months**
- Exceeded Prime Day service levels by 52%, managing over **180K SKUs** and maintaining 99.7% on-time delivery
- Built a real-time quality and compliance engine with ICQA, raising inspection accuracy from 85% to 98% within 6 months
- Reduced flow bottlenecks by **40% through Lean Six Sigma**-driven layout redesign and predictive scheduling
- Championed green packaging and **reverse logistics pilots** that cut material waste by 33% and enabled 12% reuse rate in returns processing

SKILLS & TOOLS

ERP & Integration Systems:

SAP | Oracle | Microsoft Dynamics 365 | Infor SyteLine | SQL | Supabase | FastAPI | Vercel | Google Cloud Platform | Cursor Ai

AI & Automation:

Agentic AI Development | Intelligent Document Processing (IDP) | AI-Powered Order Fulfilment | NFC-Based Receiving Systems | Prompt Engineering | Vertex AI + LangChain | Autonomous Workflow Automation

Supply Chain & Logistics Excellence:

Inventory Management | Warehouse Operations | Transportation & Freight Optimization | 3PL Coordination | Route Planning | Last-Mile Delivery | Reverse Logistics | Order-to-Cash Process Engineering

Data & Analytics:

Power BI | Tableau | Excel | KPI Dashboards | Data Cleaning & Reconciliation | Forecasting Models

Process Optimization & Management:

Lean Six Sigma (Green Belt) | Process Automation Design | ERP-Agnostic Workflow Mapping

Business & Communication Tools:

Word, Excel, PowerPoint, Outlook, Access, Teams | Figma | Lucid chart | Slack |

EDUCATION

University of Illinois at Chicago - Master's in Supply Chain & Operations Management

Malla Reddy Engineering College - B. Tech in Mechanical Engineering

CERTIFICATION

Lean Six Sigma Green Belt – University of Illinois Chicago, 2023
